Toronto Kiwanis

March 18th, 2022

Dear Parent/Guardian,

BGC Toronto Kiwanis has important information to relay to our members and families across our Club locations.

We have been closely following the advice of public health authorities, and as a precautionary measure, BGC Toronto Kiwanis will be moving forward with the following at all Club locations as of **Monday, March 21st, 2022:**

- **Mask Mandate**
 - The Club will continue to enforce our mask policy at all site locations until further notice
 - This includes program sites located in schools
- **Daily Checks**
 - The Club will remove the daily screening form but will continue to do individual temperature checks on members, staff, volunteers, etc.
 - We encourage you to continue to self-screen and keep your child/ren home if they are experiencing any symptoms
- **Vaccine Policy**
 - The Club's Vaccine Policy, for staff and volunteers, will stay in effect until further notice

Please know that our number one priority remains the same – we will do everything in our power to keep our members, staff, and community safe. We will keep you informed about any updates we might have, via email.

If you have any additional questions, please reach out. We are here to help in any way that we can.

Thank you for your cooperation and patience.
